Plumbers Licensing Board
4 / 321 Selby Street
OSBORNE PARK WA 6017

Dear Board Members

The MPGA is receiving a number of enquiries concerning access to the Capstone Assessment to gain their Contractors Plumbing Licence.

As you are aware, our training arm MPA Skills is endeavouring to provide the training in a number of forms. However the access to the assessment does not meet industry requirements as the Capstone Assessments are only available in December 2007.

The MPGA is aware that the PLB is under pressure to provide plumbers access to the new licence format. This matter has now become urgent as MPGA need to reply to our Members and industry requirements.

The MPGA look forward to a response that will hopefully accommodate the industry's request.

Yours faithfully

Murray Thomas
CEO
